Services we provide:

- Delivery, exchange and removal of roll off container.
- Sorting of oilfield containers for our customers to prevent a \$10,000.00 fine from the landfill for hazardous or tenorm impacted materials
- Tenorm transport and disposal services
- Recycling of poly pipe and thread protectors
- Recycling of metal
- Disposal of tires

Trucking

Trucking is charged round trip from our yard and back to our yard for delivery/exchange/finish.

Conditions

Metal is not allowed in garbage containers. This will result in a sorting fee.
Garbage is not allowed in recyclable containers. This will result in a sorting fee.
All roll off container contents must be contained within the receptacle and not loaded over 13 tons of material for legal transport. **If not legal for transport an additional tub will be dropped, customer will be responsible for transferring material overage into additional container and additional trucking charges at the normal trucking rate will be assessed.
If containers are not accessible, blocked, or not transportable, a dead call charge will be assessed hourly trucking.
Absolutely no hazardous materials allowed in bins, if special waste facility is utilized all charges are passed on to customer.
All new customers are required to put a credit card on file for payment or a deposit equal to trucking costs of delivery and final pick up.

Container Sizes:

- 10 yard, 20 yard and 30 yard open top roll off container
- 20 yard lidded (hold 27.7 yards of material) roll off containers
- 20yd trash trailers *bumper hitch for easy self-transporting from site to site
- 30yd compactors

Radioactive waste

If any radioactive waste is detected in trash bins, the material is sorted, hot items removed and disposed of at a licensed facility.
All hot scrap metal tubs will be sorted, no credit given for the metal.
Tenorm transportation/disposal charges apply.
